

FOR IMMEDIATE RELEASE

Broadvox SIP Trunking Interoperability Achieved with Grandstream Networks, Inc.

Broadvox GO! SIP Trunking Delivers Exciting Multimedia Features with Grandstream IP Voice & Video Converged Communication System

Dallas, TX – 01.22.08 – Broadvox, a nationally recognized leader in the VoIP industry, announced today they have achieved interoperability with Grandstream Networks' new IP-PBX product, the GXE502x series. Broadvox provides SIP Trunking products to small and medium sized businesses (SMBs) and enterprises. Grandstream Networks is the recognized leading manufacturer of high quality and affordable IP-PBX's, SIP trunking gateways, video and voice IP solutions for the worldwide VoIP market. The partnership with Grandstream creates a powerful end-to-end solution for Broadvox customers. Now, Broadvox Resellers can easily deploy IP communications including video telephony using Grandstream IP-PBX products on the robust IP network built by Broadvox.

Broadvox GO! SIP Trunking enables businesses to achieve up to 70% cost saving on a monthly basis over traditional TDM while utilizing the features and functions available with SIP. Add to this the face-to-face experience made possible with video transmission through Grandstream IP PBX products and the communication offering becomes truly unique.

"Grandstream is the only vendor with an end-to-end solution that incorporates video," said Eric Eckman, Director of Business Development at Broadvox. "Partnering with Grandstream enables delivery of a complete IP communication system to businesses that are looking for the cost savings of SIP Trunking while exploring and using its more advanced features."

As an introductory offering, Broadvox is providing a free 30 day SIP Trunking package supporting six phone lines for any Grandstream reseller or end-user who signs up before May 1, 2008.

"The award-winning GXE502x multimedia IP-PBX and the new GXW4024 24-port SIP trunking gateway represent Grandstream's commitment to offering innovative solution for converged communications in the SMB market. SIP trunking partners like Broadvox maximize the product's value by assuring full interoperability, premium quality IP call termination and in the near future, 1-button automated provisioning to allow near out-of-the-box calling capability for our customers," stated David Li, CEO of Grandstream. "The Broadvox-Grandstream's partnership presents a powerful end-to-end solution and compelling value proposition to the SMB market."

Grandstream recently announced that they received the 2007 INTERNET TELEPHONY Product of the Year Award for their GXE 502x series of next-generation converged business communications systems. At this IT Conference and Expo, Grandstream will be conducting three complimentary training sessions where registrants will learn how to successfully install this new appliance and also receive Grandstream Authorized Installer certification. Grandstream is also pleased to announce the release of the GXW4024, their new 24-port FXS gateway which features advanced SIP trunking, security protection and TR-069 management capability. Visit Grandstream at Booth #822 to see the product.

Broadvox and Grandstream together will deliver a powerful, affordable, and easy to use solution for SMB voice and video communication needs. Broadvox delivers SIP Trunking solutions on a private network designed with state of the art equipment, enabling customers to achieve the benefits of SIP no matter what their existing infrastructure is. Broadvox GO! SIP Trunking has unlimited local calling, discounted long distance and Toll-free with local number portability. DID Blocks are also available. The network is monitored 24x7 and delivers service to more than 90% of the US and Canada.

About Broadvox

Founded in 2001, Broadvox is a worldwide leader in providing integrated managed VoIP services to SMB, Enterprise and Carrier customers. It has deployed one of the largest, full-featured global VoIP networks and is trusted by more than 160 telecommunications carriers, CLECs, ISPs and over a thousand enterprises to terminate and originate over six billion minutes annually. The Broadvox network operations center provides the reliability, security and quality of service required by the world's most discriminating customers. Broadvox offers SIP Trunking, SIP origination and termination services and hosted communications solutions. Broadvox is headquartered in Dallas, Texas.
