

**FOR IMMEDIATE RELEASE**

## **Grandstream IP Surveillance Cameras Now Interoperable with NUUO Video Management Solutions**

*Interoperability allows NUUO Customers to Combine Advanced Video Analytics with Grandstream IP Cameras Which Can Be Added to NUUO PC-based Network via a Simple Click*

**Brookline, MA (January 26, 2012)** – [Grandstream Networks](#), the leading manufacturer of IP voice/video telephony and video surveillance solutions, and [NUUO](#), the world's leading provider of open platform video management solutions, today jointly announce that interoperability and integration between Grandstream's [GXV36xx/GXV35XX Series IP Cameras and Video Encoders](#) and all of NUUO's PC-based and standalone video management and recording solutions. With Device Pack v.1.13, NUUO residential, small-to-medium sized businesses (SMB) and enterprise customers can now click to add Grandstream cameras by model name to the network with advanced video analytics vs. addition of cameras as a generic ONVIF network video terminal.

"Grandstream is an important partner for us," said Patty Kao, Nuuo's South America sales manager. "By establishing a long term relationship, I am confident that we can achieve great success satisfying customer applications in the surveillance market together."

Grandstream's award-winning IP video surveillance cameras include model types for high definition/low light conditions ranging from CMOS & CCD cameras, box cameras, fixed dome cameras, cube cameras, outdoor cameras and more. With features like multi-rate H.264 and MJPEG real-time video compression (up to HD1080p), integrated 2-way audio telephony features, day/night mode, advanced mega-pixel CMOS sensor with wide dynamic range, integrated PoE and HTTP API for easy integration, Grandstream cameras embrace total convergence of voice and video to maximize business applications and cost benefits. For a unified audio + video + surveillance solution, Grandstream's entire family of IP video cameras are capable of 2-way, bi-directional SIP/VoIP audio and real-time video streaming capabilities to mobile phones and video phones anywhere in the world and are fully compatible with Grandstream's GXE IP PBX as well as various other SIP-based IP PBX's and Service Provider Networks.

NUUO's PC-Based NVR (IP+) is an open platform recording solution that manages up to 128 IP network cameras. The software allows users to easily manage live video streams from multiple IP cameras and video with an intuitive GUI recording schedule and interactive E-map. Other unique functions include NUUO intelligent video solution (IVS), event detection and intelligent playback search, video enhancement tools, and mobile (3G) support.

"We are pleased to partner with NUUO to extend to their customers an innovative surveillance solution with superior video quality and ease of use," said David Li, CEO of Grandstream. "Grandstream's cameras offer an unrivaled feature-performance-price value attractiveness combination that is quickly gaining strong traction in the surveillance and security marketplace. We look forward to working with NUUO to bring our award-winning video solutions to their customers."

**ABOUT NUUO**

Founded in 2004, NUUO deploys advanced and comprehensive technologies to enhance the surveillance cameras to high standards demanded by our Intelligent Surveillance Solution. Combining NVR and Hybrid technologies with IVS detections guaranteed NUUO a successful and fast entry to the market. Visit [www.nuuo.com](http://www.nuuo.com) for more information.

**ABOUT GRANDSTREAM NETWORKS**

Founded in 2002, Grandstream Networks is the leading manufacturer of IP voice/video telephony and video surveillance solutions.
