GRANDSTREAM GXV3140 IP MULTIMEDIA PHONE IN ON-SET CELEBRITY GIFT  
LOUNGE

*GXV3140 Offers Free Real-Time Video/Voice Calling with Instant Access to Web Applications  
and Social Media*

**BROOKLINE, Mass., November 23, 2009** – Grandstream Networks ([www.grandstream.com](http://www.grandstream.com)) today announced its new GXV3140 IP Multimedia Phone for consumers will be showcased in the only on-set gift lounge and celebrity gift bags for the Season 9 Finale of the #1 Nielsen Rated "Dancing With The Stars" filming in Los Angeles, on Tuesday, November 24, 2009. Invited stars, professional dancers, attending celebrities, judges and national/international press will experience up close how easy it is to hear and see family, friends and colleagues around the world for free using the GXV3140 and an existing broadband connection.

According to David Cook of UMGX Entertainment, the celebrity services company responsible for gift lounges at shows including the 10th Annual Latin GRAMMY® Awards, Dancing With The Stars and The 52nd Annual GRAMMY® Awards, "We're always looking for new and unique tech products that offer ways to stay connected and have that extra something. The Grandstream video phone is the type of hip gadget we know will make a great addition to any celebrity lounge, especially this season's finale of "Dancing With The Stars." He added, "The phone has a tons of applications for a desktop phone -- a lot of the features mobile and PC users are accustomed to -- such as YouTube, Internet radio and all the streaming media. It's a cool phone."

A perfect gift for a celebrity or anyone on your holiday shopping list, the GXV3140 desktop IP Multimedia Phone with built-in IPVideoTalk offers for no additional monthly fee, face-to-face two-way or three-way video calling out-of-the-box along with instant access to Web and social multimedia applications. With a 4.3" digital color LCD screen, the 'always-on' GXV3140 has an integrated web browser giving consumers convenient, one-touch access to personalized RSS feeds of real-time online information services (news updates, stock updates, weather forecasts, directory searches, etc.), thousands of Internet radio stations, social networking sites (Facebook, Twitter) and popular streaming Internet entertainment sites like YouTube and Last.fm.
