PRODUCT END-OF-LIFE NOTICE

May 5, 2008 Brookline, MA – Grandstream Networks today announces the end-of-life for the Grandstream BudgeTone 102 (BT102). Grandstream will stop taking new orders for BT102 effective immediately. Additionally, no new firmware release for this model is planned in the future. BudgeTone102 customers will continue to receive support (including RMA service) from Grandstream for up to 12 months after end-of-life.

Grandstream BudgeTone102 customers are encouraged to migrate to the BudgeTone 200. The BudgeTone 200 is the most powerful phone in the BudgeTone series. Advanced features and benefits include:

- Two (2) 100 Mbps auto sensing Ethernet RJ45 ports
- Full duplex speakerphone
- Advanced SRTP security features

Grandstream believes that migration to the BudgeTone200 should be straightforward. There are very limited changes in user interface or product installation.

Key Product Differences:

Feature	BudgeTone102	BudgeTone200
LAN Interface	2 x RJ45 10Mbps	2 x RJ45 10/100Mbps
Full Duplex Speaker Phone	No	Yes
Interoperability with major SIP platforms: Avaya CM, Cisco CM, Broadworks, Sylanro, etc	No	Yes
