

FOR IMMEDIATE RELEASE

Grandstream and babyTEL Announce Interoperability

Grandstream and babyTEL announce interoperability with Grandstream's All-in-1 IPPBX

Brookline, MA (June 27, 2008) - Grandstream Networks, a globally recognized manufacturer of feature rich, cost-effective IP-PBX's, enterprise SIP trunking gateways, and IP voice and video endpoints for the worldwide VoIP market announced today that their newly available IP-PBX series, the GXE502x has achieved interoperability with the SIP network of social VoIP pioneer babyTEL (www.babyTEL.ca). Both companies are pleased to announce the availability of babyTEL SIP Trunk and associated VoIP features bundled with Grandstream's all-in-1 IPPBX. The combined product-service offering is certified interoperable by both companies, guaranteeing that babyTEL's carrier-grade VoIP service works seamlessly with the Grandstream's IP-PBX.

The GXE502x appliance is a powerful all-in-one voice + video + fax + data communication solution for the small to medium sized business, especially companies with sub-30 seats per location. The GXE502x takes modern business communication systems to a heightened level of innovation, quality, reliability, ease of deployment and affordability. BabyTEL will offer a bundle for their services with this product.

babyTEL's Enterprise VoIP Service offers unparalleled features and creative fixed price packages compared with traditional telephone services. babyTEL's services were developed to meet the requirements of today's businesses that need to support virtual presences, multiple locations, satellite offices, mobile work force, and tele-workers.

"We are pleased to have achieved comprehensive interoperability with babyTEL on our newly generally available GXE502x," stated David Li, CEO of Grandstream. "SIP trunking partners like babyTEL maximize the product's value by assuring full interoperability and premium quality IP call termination for the GXE502x. The babyTEL-Grandstream partnership represents our continued commitment to offering broadly interoperable and powerful IP voice solutions to the SMB market."

"This announcement represents babyTEL's continued commitment to providing cost effective VoIP solutions to the SMB," said Stephen Dorsey, President and CEO of babyTEL. "We are very pleased to have the opportunity to work with a world-class organization like Grandstream. Our combined solution is loaded with valuable features and benefits and we look forward to supporting Grandstream dealers in offering a total telephone solution to the business community."
