GRANDSTREAM BUDGETONE 101 AND GXP-2000 RECEIVE EDITOR'S CHOICE AND RECOMMENDED CHOICE BY PERSONAL COMPUTER WORLD.

Brookline, MA, U.S.A.

Grandstream Networks, a leading designer and manufacturer of next-generation IP Voice and Video products for broadband networks, today announced that the BudgeTone 101 received the Business Editor's Choice by *Personal Computer World*, and the GXP-2000 received a Recommended Choice. Both products received 4 out of 5 stars. ***Personal Computer World*** is the UK's most authoritative brand for independent **computer** advice, backed by over 27 years of technical expertise and experience. *Personal Computer World* is one of several titles in the VNU Network.

BudgeTone 101 is a next generation, one-line SIP phone that features excellent audio quality, rich telephony functions, full SIP compatibility and interoperability with the major 3rd party SIP providers. The phone offers upgraded feature functionality including 3-way conferencing, full-duplex hands-free speakerphone, voicemail with indicator and custom ring tones. The BudgeTone 101 is interoperable with most SIP end-user devices, Proxy/Registrar/Server, and gateway products. It is an affordable, easy to manage IP solution for the home.

Grandstream GXP-2000 is a next-generation enterprise SIP telephone that is feature rich, easy to use, supports Power-over-Ethernet and is competitively priced. Expandable, secure and easy to manage, the GXP-2000 offers intuitive user interfaces, multiple lines, dual 10/100mbps Ethernet ports, upgraded feature functionality, graphical LCD display, secure central configuration, superior audio quality, excellent manageability, and interoperability with most SIP end-user devices, IPPBX and Softswitches. The GXP-2000 is continually recognized as best in class by leading industry experts.

According to *Personal Computer World*, the [Grandstream Budgetone 101](#) was chosen as the Business Editor's Choice and given 4 out of 5 stars because "it doesn't take up a lot of desk space, has a large, clear display, large buttons with a quality feel, is relatively easy to set up and is good value for money. For the home user who only wants a single-line phone, it's ideal."

Personal Computer World selected the GXP-2000 as a Business Editor's Recommended Choice "if you want a business-oriented phone with multiple lines or use multiple SIP accounts. It supports four accounts; each easily selected by pressing one of the four clearly marked line buttons, is stylish and can also be expanded to control extensions."

"We are extremely pleased that Grandstream IP phones have been recognized by the leading independent computer advice magazine," said David Li, CEO of Grandstream Networks. "Both the Editor's Choice and Recommended Choice awards reinforce Grandstream's commitment to developing next-generation and affordable IP voice products for both the residential and business user. We look forward to providing more innovative and affordable multi-media products for our customers in the near future."

The BudgeTone family of products and the GXP-2000 is available through Grandstream's distribution channels worldwide. For more information about Grandstream products please visit www.grandstream.com.
