GRANDSTREAM ANNOUNCES NEW HANDYTONE 502 ATA
HandyTone 502 offers new design and packed powerful features

Broward Convention & Exposition Center – Ft. Lauderdale, FLA.

Grandstream Networks, a leading designer and manufacturer of next-generation IP Voice and Video products for broadband networks, today announced the release of its newest member of the popular HandyTone Analog Telephone Adaptor Series, the HandyTone 502. The HandyTone 502 offers more powerful feature functionality and significantly better data router performance than its predecessor, as well as a new stylish look and design.

The HandyTone 502 is based on SIP standard and features 2 FXS ports, dual 10M/100Mbps Ethernet ports with integrated high performance NAT router, port status and message waiting LED, and a base stand for vertical positioning. It supports UPnP, SIP over TCP/TLS, up to 2 SIP account profiles, caller ID, call waiting, 3-way conference, blind or attended transfer, call forward, do not disturb, voicemail, T.38 fax, flexible dial plan, direct IP calling, multi-language voice prompts, secure and automated provisioning using HTTP/HTTPS/Telnet/TFTP, symmetric and asymmetric voice codec/RTP in any call sessions, and various popular voice codecs including G.711(a/u-law), G.723.1, G.729A/B, G.729E, G.728, G.726-40/32/24/16 and iLBC. The MSRP for HandyTone 502 is \$95.

“The HandyTone 502 is the next generation of powerful, affordable, high quality and manageable IP telephony solution for both the residential customers and the ‘road-warriors’. Its excellent voice quality, packed feature functionality and market leading price-performance point sets the product ahead of the competition,” said David Li, CEO of Grandstream. “The release of HandyTone 502 reinforces our continued commitment to offering best-in-class innovative and affordable IP telephony solutions for our world-wide customers.”

The HandyTone 502 will be available through Grandstream’s distribution channels worldwide in February 2007. For more information about the HandyTone Analog Telephone Adaptor Product Series, please visit us at: www.grandstream.com.
