## **GRANDSTREAM ANNOUNCES FEATURE PACK 2.0 RELEASE FOR GXV3140 IP MULTIMEDIA PHONE**

**BROOKLINE, MA (December 21, 2009)** – Grandstream Networks ([www.grandstream.com](http://www.grandstream.com)), the leading manufacturer of IP voice/video telephony and video surveillance solutions, announced today Feature Pack 2.0 Release the GXV3140 IP Multimedia Phone. The GXV3140 is a broadband IP multimedia phone for consumers and SMBs that marries Web and social multimedia applications with free, real-time IP video telephony to strengthen relationships with family, friends, business colleagues and customers. With Feature Package 2.0, customers can now make 3-way video calls, access social networks like Facebook and Twitter, customize the phone with various music ring tones, stream video from sites like YouTube and IP video surveillance cameras, and use the GXV3140 in a wireless environment via Grandstream's optional WiFi adapter.

The GXV3140 was recently received The Best VoIP Phone from SMARTHOUSE magazine, honored with Technology Marketing Corporation's (TMC) 2009 Innovation and Next Generation Network Product of the Year Award and was included in the celebrity gift bag for "Dancing With the Stars" Season 9 Finale Gifting Services Gift Suite.

### **Feature Package 2.0 Firmware**

The updated firmware with a number of multimedia, security and mobility enhancements includes:

- Support for YouTube (including various video categories, shows, movies, custom search, etc)
- Support for Facebook and Twitter (including text messaging, photo sharing & display, record & upload video clips and photo snapshots from the GXV3140, etc)
- Expanded Internet radio channels, personalized music ring tone, additional language pack (Danish), Quote of The Day, Horoscope, World Weather
- H.263/H.263+ video codec, 3-way video conference, SRTP, OpenVPN
- World Photos – Users can view photos from different countries around the world and configure them as screen savers
- Slide Show – Users can create automated slide show with photos from their Yahoo Flickr, Photobucket, Phanfare accounts, or world photo gallery, and choose a music source from thousands of Internet radio channels or major music sites such as Last.fm as background music
- Support for 802.11b/g/n USB WiFi dongle
