

## Fonax and Grandstream Networks Announce Interoperability of Enterprise Digital IP PBX Solutions with Video and Voice Convergence.

**Miami, FL - (February 15th 2011)** - Fonax successfully showcased at the 2011 ITEXPO their new Enterprise IP-PBX graphical user-interface offering complete interoperability with Grandstream's Voice and Video IP telephones and video surveillance terminals. Fonax's advanced technology, yet simple-to-use interface, allows changes, updates and setting-up process, as easy as a few simple clicks.

The stylish design and minimalist user interface is also very fast, and highly intuitive.

This new interface, shown at the 2011 IT EXPO in Miami, marks a major milestone and a significant advance for Fonax's cutting-edge IP-PBX.

Fonax continued to ramp up their successful partnership with Grandstream Networks, by deploying and certifying the new Grandstream lineup across their entire PBX solutions offerings.

The ITExpo East was well attended by decisions makers from the leading technology and telecommunications companies from around the world. "The aisles were completely packed and our meeting sessions were full," said Nelson Roach, President of Fonax, "we are proud of our partnership with a leading IP Phone innovator, like Grandstream."

"Attendees were impressed with our new product lineup, and we were pleased with the show venue results. The show was excellent," said Augusto Rodriguez, Fonax Sr. Business Developer. "We connected with many new customers and expanded our channels. All of them impressed with our choice in IP hardware, and more specifically with Grandstream Networks' HD-Audio Enterprise IP Phones, Touch Screen Video Phones and amazing IP Cameras - a perfect example of communications convergence".

“Our new series of IP phones GXP21xx and GXP14xx allow clear communications and rich functionality for corporate users, which are complemented with powerful and advanced applications delivered by Fonax technology. ” said Jorge Otero, Grandstream’s Latin America Sales Manager. “Fonax video capability and our latest development in Video Telephony, namely GXV3175 and GXV3140 multimedia phones, and IP Cameras GXV36xx and encoders GXV35xx , strengthen and facilitate unified communication capabilities (UC) into the SOHO, SMB or Enterprise markets” added Jorge Otero.

ITEXPO is a unique event where end-user meet the industry leading distributors and manufacturers to forge relationships and close deals.
