

FOR IMMEDIATE RELEASE

**SENSO TELECOM CERTIFIES INTEROPERABILITY WITH GRANDSTREAM'S GXE502X,
ALL-IN-ONE IP PBX**

Grandstream and Senso Telecom together bring a seamless turnkey solution to the small to medium sized business market

CeBIT Trade Fair Hannover, Germany (March 3, 2009) – Grandstream Networks, a globally recognized manufacturer of high quality and affordable IP voice and video solutions for the worldwide VoIP SMB market, is pleased to announce full interoperability with Senso Telecom.

Senso Telecom is a leading new generation VoIP carrier in France. Senso Telecom operates a turnkey solution for VoIP Services System Integrators who face the need for innovative VoIP services to be securely deployed to their customers. Senso Telecom provides a wide array of complete, diversified and complementary VoIP services, like SIP Trunking for the SMB, and a virtual VoIP operator platform which includes: self-provisioning of local or non geographical phone numbers, virtual PBX, voice mail, customized calling plans and rates, online payment, multi criteria call hunting service, automatic invoicing with prepay or postpay options.. Senso Telecom's SIP Trunking services and Grandstream's IP PBX offer an exceptional solution for the SMB.

Grandstream's GXE502x IP PBX offers advanced functionality, ease-of-use and affordability as an all-in-one IP PBX solution. Grandstream's IP PBX small office phone system is known for relieving the small business owner of the significant costs (both labor and monetary) involved with installation. Not only does the GXE502x offer the affordability and flexibility of IP telephony, but also advanced features like video conferencing along with customizable auto-attendant, ACD, voice mail, fax server, SBC, CID interrogated pinning and paging. The product also offers one-button provisioning of SIP Trunks, auto-detects and configures IP phones and other hardware -- making setup easy. Its versatility and functionality coupled with Senso Telecom's network ensure reliability and value.

"The partnership initiated between Senso Telecom and Grandstream offers tremendous synergy. This bundle including our VoIP subscription and Grandstream's IP PBX provides the SMB with a robust telephony solution that is essentially plug and play. Our partnership also provides those contemplating the migration to VoIP the opportunity to explore the many benefits of using this technology at a low entry cost." said Michel Sebis, VP Sales and Marketing of Senso Telecom. "We expect a great success with this innovative IP PBX combined with our VoIP services bundle. This success will only be enhanced by the power of Allnet's logistics."

ALLNET France is very pleased to announce a partnership with Senso Telecom and Grandstream, two competent and sophisticated big players in the VoIP sector.

As an official Grandstream distributor for Europe, the cooperation offers a big chance to enlarge the market share of Voice over IP technology for ALLNET France. Technical capabilities as well as many years of experience in the VoIP business are the key competencies of ALLNET. Supported by ALLNET Germany with nearly 20 years of distribution and logistics knowledge, ALLNET France will be able to expand its market share and the number of satisfied customers in France.

“We are very pleased to announce our partnership with Senso Telecom. Senso Telecom’s powerful VoIP platform, converged IP solutions and collaboration services provide maximum user flexibility. This service coupled with our GXE502x, IP PBX, offers our SMB customers a seamless integration and affordability.” adds David Li, CEO of Grandstream Networks. “We look forward to continue working closely with Senso Telecom to ensure an exceptional value proposition for SMB.”

This unique offering will be available through Grandstream’s Certified Partner, Allnet. For more details visit their website: <http://www.allnetfrance.fr>

About Grandstream Networks:
