

FOR IMMEDIATE RELEASE

VOICESERVE'S (VSRV.OB) VOIPSWITCH SOLUTIONS AND GRANDSTREAM'S GXE502X ALL-IN-ONE IP PBX ACHIEVE INTEROPERABILITY

London, England (May 14th, 2009) -Grandstream Networks, a globally recognized manufacturer of high quality and affordable IP PBXs, SIP trunking gateways and IP voice and video solutions for the worldwide VoIP SMB market, is pleased to announce full interoperability with Voipswitch a recognized leader in softswitch communication globally.

The Grandstream IP PBX offers advanced functionality, ease-of-use and affordability as an all-in-one IP PBX solution. Grandstream's IP PBX small office phone system is known for relieving the small business owner of the significant costs (both labor and monetary) involved with installation. Not only does the phone system offer the affordability and flexibility of IP telephony, but also advanced features like video conferencing, customizable auto-attendant, ACD, voicemail, fax server, robust dial plan, SBC, CID interrogated pinning and paging. The product also offers one-button provisioning of SIP Trunks, auto-detects and configures IP phones and other hardware, making setup a piece of cake. The products robust versatility and functionality coupled with Voipswitch's network ensure customers a high quality experience.

"Voiceserve is glad to announce our partnership with Grandstream Networks. Achieving interoperability with Grandstream's IP PBX, allows Voiceserve to provide its consumers with very high quality and reliable VoIP business solutions. Grandstream's premier products in conjunction with our Voipswitch Solution will offer the consumer the a robust solution to fit their communications requirements", adds Chris Oglaza,CTO,Voiceserve,Inc.
