

FOR IMMEDIATE RELEASE

GRANDSTREAM'S GXE502X IP PBX AND VOYZE'S SIP TRUNKING SERVICES ACHIEVE INTEROPERABILITY

INTERNET TELEPHONY SHOW AND EXPO, MIAMI, FL (FEBRUARY 3, 2009) –Grandstream Networks, a globally recognized manufacturer of high quality and affordable IP PBXs, SIP trunking gateways and IP voice and video solutions for the worldwide VoIP SMB market, is pleased to announce full interoperability with Voyze, a recognized leader in low cost VoIP/SIP Trunking Services with presence in the United States and Latin American markets. By upholding a leading edge technology system platform, Voyze is constantly seeking solutions and systems able to broaden and improve their national and international long distance phone service.

The GXE502x IP PBX offers advanced functionality, ease-of-use and affordability as an all-in-one IP PBX solution. Grandstream's IP PBX small office phone system is known for relieving the small business owner of the significant costs (both labor and monetary) involved with installation. Not only does the GXE502x offer the affordability and flexibility of IP telephony, but also advanced features like video conferencing along with customizable auto-attendant, ACD, voice mail, fax server, robust dial plan, SBC, CID interrogated pinning and paging. The product also offers one-button provisioning of SIP Trunks, auto-detects and configures IP phones and other hardware -- making setup easy. Its versatility and functionality coupled with Voyze's network ensure customers a high quality experience.

"Voyze is glad to announce our partnership with Grandstream Networks. Achieving interoperability with Grandstream's IP PBX, allows Voyze to provide our Hispanic and Latin American consumers high quality VoIP business solutions. Grandstream Networks' premier products in conjunction with our VoIP/SIP trunking services will offer the consumer the best affordable solution to fit their needs", adds Consuelo Sanchez-Octavio, President/CEO Future Voice, LLC

"We are very pleased to announce our partnership with Voyze. Voyze's international presence, converged IP solutions and collaboration services provide maximum solution flexibility. This service coupled with our GXE502x, IP PBX, offers our SMB customers a seamless integration and affordability." adds David Li, CEO of Grandstream Networks. "We look forward to continue working closely with Voyze to ensure an unprecedented user experience and value proposition for the SMB."

ABOUT VOYZE:

Voyze is an Internet voice communication service provider that offers the most affordable long distance service to Latin America and the rest of the world as well as VoIP business solutions for

small and medium businesses. Voyze is targeted to U.S. Hispanics and Latin Americans, offering the highest quality and all the standard features of VoIP services. Voyze is owned by Future Voice, LLC, a Hispanic owned and operated international telecommunications company based in South Florida and specialized in VoIP technology.
