## **Headset Compatibility**

**Table 1: RJ9 headsets and cables**

| Vendor                    | Model  | Cord/Cable Model Number   |
|---------------------------|--|---|
| <b>VXi</b>                | Passport 21V                                     | 1026V (RJ)  |
|                           | Tria V   |   |
|                           | 4010V<br>Note: 1026V (RJ) cable is not supported | Omnicord – V  |
|                           | 4021V<br>Note: 1026V(RJ) cable is not supported  |   |
|                           | ProSet 10V                                       | 1027V (RJ)  |
|                           | ProSet 21V                                       |   |
| <b>Addcom</b>             | ADD800   | ADDQD-04 (RJ)   |
| <b>Poly (Plantronics)</b> | HW261N   | A10-16 Direct Connect cable with 85638-01 cable or U10P-S cable |
| <b>JPL</b>                | JPL Connect 2                                    | BL-10 (+P) RJ9  |

**Table 2: EHS headsets and adapters/cables**

| Vendor                    | Model                      | EHS Adapter                  |
|---------------------------|----------------------------|------------------------------|
| <b>Poly (Plantronics)</b> | C052                       | APD-80 (with 85638-01 cable) |
|                           | C054                       | APD-80 (with 85638-01 cable) |
|                           | WO100                      | APV-63                       |
| <b>VXi</b>                | VXi V100                   | VEHS-A1                      |
|                           | VXi V150                   |                              |
| <b>EPOS   SENNHEISER</b>  | IMPACT D 10 HS             | CEHS-AV 04                   |
|                           | IMPACT SD Series (US only) | CEHS-AV 04                   |
|                           | IMPACT SDW Series          | CEHS-AV 04                   |

**Table 3: Bluetooth headsets**

| <b>Note:</b>              | 1. Supported on GRP2614/GRP2615/GRP2616.  |
|---------------------------|---|
|                           | 2. Answering call and ending call via Bluetooth headset are supported. Volume adjustment and redial may not be fully supported on the headsets below. |
| <b>Vendor</b>             | <b>Model</b>  |
| <b>Poly (Plantronics)</b> | Voyager 5200 Series   |
|                           | Voyager Legend  |
|                           | Voyager Pro   |
|                           | Voyager Focus UC  |
|                           | Voyager 104   |
|                           | Explorer 500  |
|                           | M25   |
|                           | M55   |
| <b>Jabra</b>              | Easygo  |
|                           | Wave  |
| <b>Logitech</b>           | UE3100  |
| <b>Apple</b>              | AirPods 1   |
| <b>Samsung</b>            | HM1950  |
| <b>Motorola</b>           | H500  |
| <b>Nakamichi</b>          | BT304   |
| <b>Linner</b>             | NC50  |
| <b>Pasonomi</b>           | TWS-X9  |

**Table 4: USB headsets**

| <b>Note:</b>              | 1. Supported on GRP2615/GRP2616 firmware 1.0.5.24 or higher versions.   |
|---------------------------|---|
|                           | 2. Volume adjustment may not be fully supported on some of the headsets below.  |
|                           | 3. If “Always Ring Speaker” is set to “Yes both” on the phone’s web UI, ringtone will only play through the headset, not the speaker. |
| <b>Vendor</b>             | <b>Model</b>  |
| <b>Grandstream</b>        | GUV3000 USB headset   |
|                           | GUV3005 USB headset   |
| <b>Poly (Plantronics)</b> | Blackwire 620 USB series  |
|                           | Blackwire 3300 USB series   |
|                           | Blackwire 5200 USB series   |
|                           | EncorePro 300 USB series  |
|                           | EncorePro 500 USB series<br>(Tested with DA90 Quick Disconnect USB adapter)   |
|                           | Savi 8200 series<br>(Tested with the USB cable in the headset package)  |
| <b>Jabra</b>              | Biz 1500 USB  |
| <b>EPOS   SENNHEISER</b>  | IMPACT SC 200 series USB  |
|                           | IMPACT SC 600 series USB  |
| <b>JPL</b>                | USB 400B  |
|                           | ELEMENT TT3 EVO-BIN with cable BL053+P  |
| <b>Leitner</b>            | LH230 USB   |
|                           | LH250 USB   |

**Note:**

The headsets listed in GXP21xx/17xx headset compatibility document are generally compatible with GRP261x series as well. However, not all headsets in GXP21xx/17xx headset compatibility document are individually tested on GRP261x due to headset availability. Here is the GXP21xx/17xx headset compatibility document for reference:
