| Product Type: | Layer 3 Multi-Gigabit Network Switch |
| Brand Name: | GRANDSTREAM |
| Description: | The GWN7822P is a Layer 3 multi-gigabit managed PoE switch that allows medium-to-large enterprises to build scalable, secure, high performance, and smart business networks that are fully manageable. It supports advanced VLAN for flexible and sophisticated traffic segmentation, advanced QoS for prioritization of network traffic, IGMP/MLD Snooping for network performance optimization, comprehensive security capabilities against potential attacks, and provides smart dynamic PoE output to power IP phones, IP cameras, Wi-Fi access points and other PoE endpoints. It can be managed in a number of ways, including the local Web user interface of the GWN7820 series switch, CLI which is the command-line interface. It is also supported by GWN.Cloud, GWN Manager, Grandstream's cloud and on-premise network management platform. With complete end-to-end quality of service and flexible security settings, the GWN7822P is the best value enterprise- grade managed PoE switches for medium-to-large businesses. |
