# **CHANGE LOG**

This section documents significant changes from previous versions. Only major new features or major document updates are listed here. Minor updates for corrections or editing are not documented here.

### **GWN Cloud Application Version 1.0.0.19**

• Added support for "Local Server".

### **GWN Cloud Application Version 1.0.0.2**

• This is the initial version for GWN Cloud Application for Android<sup>™</sup>.

# WELCOME

Thank you for using GWN Cloud Application for Android<sup>™</sup>. GWN Cloud app is developed to manage the network-based APs at anytime from anywhere with Android<sup>™</sup> devices. This free app links seamlessly with APs registered in GWN cloud and those adopted in GWN Manager, it allows users to conveniently monitor and manage the wireless network established by GWN APs. The GWN Cloud app extends web features to Android<sup>™</sup> device to allow you to manage the network and be productive while on-the-go: monitor Network/AP/Client status in different time periods, receive alert information as soon as alert event occurs, add AP to the network via phone camera scanning or manually fill in AP MAC and its corresponding password, monitor AP details including usage, event log and AP information, support AP locate for users to find its exact physical location and AP debug for problem-tracking, and much more. There is no purchase necessary to manage the network-based APs with the GWN Cloud app.

### **GETTING STARTED**

### Getting GWN Cloud Application for Android<sup>™</sup>

GWN Cloud application is compatible with most of Android<sup>™</sup> devices running Android<sup>™</sup> 4.0 or higher, including mobile phones, tablets etc. The application is available on Google PlayStore: <u>https://play.google.com/store/apps/details?id=com.grandstream.gwn&hl=en</u>

### **Login to GWN Cloud Application**

Once the GWN cloud application is installed on your android device, click on the app icon to start it.

#### Notes:

- GWN Cloud application can be used with GWN.Cloud server (EU-Zone or US-Zone) or GWN Manager (Local server).
- To use GWN Cloud Application, users need to have an account previously created on GWN Manager or GWN Cloud. Refer to this link to sign up on GWN Cloud: <u>https://www.gwn.cloud/login</u>

Figure 1: GWN Cloud Application Login Page

Select EU-Zone or US-Zone if using GWN.Cloud server, otherwise if using GWN manager, select "Local Server".

	C EU-Zone
	GWN
٤	admin
G	
Γ	US-Zone
	EU-Zone
	Local Server
	Cancel

Figure 2: Local Server Login

If using "Local Server" (GWN Manager), please specify the server address; for example: https://192.168.5.213:8443

Cancel	Server Address	ок
https://192.1	68.5.213:8443	۲

Figure 3: GWN Manager address

Press "**OK**" to get to the login page, so you can enter your GWN Manager account and password as shown below.

Figure 4: GWN Manager Account Login

## **OVERVIEW**

The Overview page provides general information that can be used to monitor both access points and clients connected to them.

### **AP and Clients**

App and clients interface shows the status of the monitored Access points. Users can monitor the number of APs connected to their networks as well as the number of clients connected to each Wi-Fi Band (2.4G/5G).

Figure 5 : APs and Clients

### **Bandwidth Usage and Clients Count**

From the Bandwidth usage and Clients count interface, users can monitor their bandwidth as well as the number of clients connected per time. The time range for monitoring can be set to Days, Weeks, or Months

1 Day     1 Week     1 Month       Bandwidth Usage     Upload     Download       100Kbps     OKbps on the second	Ļ.		ult 🗸	defau		=

# **ACCESS POINTS**

The access points (AP) tab displays the list of access points paired with GWN platform for each Network/SSID and allows users to add new GWN76XX access points.

The following table shows the requirements of Grandstream networking products GWN76xx GWN Management Platform:

Table 1: AP requirements					
		GWN.Cloud		GWN Manager	
	Model	1.0.10.9		1.0.0.21	
		Minimum	Recommended	Minimum	Recommended
	GWN7610	1.0.6.37	1.0.11.8	1.0.13.1	1.0.13.1
	GWN7600	1.0.6.33	1.0.11.8	1.0.13.1	1.0.13.1
	GWN7600LR	1.0.6.33	1.0.11.8	1.0.13.1	1.0.13.1
Version of AP	GWN7630	1.0.9.2	1.0.11.8	1.0.13.1	1.0.13.1
	GWN7630LR	1.0.11.8	1.0.11.10	1.0.13.1	1.0.13.1
	GWN7602	1.0.1.6	1.0.3.4	1.0.3.4	1.0.3.4

### Adding New Access Points to the GWN Cloud

To add an Access point to GWN.Cloud, the administrator needs two information:

- MAC address of the Access Point.
- Wi-Fi Password in the back of the unit.

There are 2 methods to add GWN76xx to the cloud using GWN App:

- Method 1: Adding New AP Manually
- Method 2: Adding New AP by scanning Barcode

#### Method 1: Adding New AP Manually

- 1. Locate the MAC address on the MAC tag of the unit, which is on the underside of the device, or on the package.
- 2. Locate the Wi-Fi Password.

Figure 8: GWN Access Point MAC and Wi-Fi Password

3. From **APs** tab, click on + button and select **Manual Add**, then enter AP's information:

<	Scan	Add	Manual Add
Na	ime	Please	e enter AP name
* M	ас	Please	e enter AP Mac
* Pa	ssword	Please	e enter AP password 💿
		A	dd

Figure 9 : Manual Add

The following table describes required parameters to add new AP to GWN Cloud using GWN App.

Section	Description
Name	Enter a name for the new Access points to identify it easily.
MAC	Enter the MAC address of the new Access Point.
Password	Enter the Wi-Fi Password.

#### Method 2: Adding New AP by scanning Barcode

New Access Points can also be added to GWN Cloud by Scanning the Barcode from the Access point's sticker using mobile phone camera.

1. From **APs** tab click on + button and select **Scan Add**, then point the mobile phone camera to the AP's sticker.

Figure 10 : Adding New AP by Scanning the Barcode

Once added, the list of APs will be displayed on APs tab as shown below

=	All network	(S 🗸	<b>Ļ</b>
Q	Search Mac/Nan	ne	11 +
• 00:0B:82:AF	:D2:E0		Clients:2 91.41 MB
• 00:0B:82:AF	:D2:58		Clients:0 0 KB
0 0verview	Access Point	Clients	SSIDs

Figure 11 : New APs to GWN Cloud using GWN Application

#### Adding New Access Points to the GWN Manager

GWN Manager detects the Access points that you can Adopt within the same subnet.

1. From "Access Point" tab, + click on button, and then the bellow screen will be displayed.

Figure 12: Adopt an Access Point

2. Press "Adopt" so you can adopt the selected Access Point.

# **SSIDS**

The SSID tab lists all the SSIDs assigned to a specific Network and allows users to add new ones or edit existing SSIDS.

#### Add New SSID

The steps below describe how to add New SSID from GWN Application

1. Select the Network that will be used by the SSID from the top dropdown menu, then click on Add button

	default	•	ŧ
GWN-Manager WPA2-PSK			Enable
Test WPA2-PSK			Enable
			+
Overview	Access Point	Clients	SSIDs

Figure 26 : Add New SSID

2. A new tab will be displayed where users need to enter the following information

<	Add SSID	Add
*Name	Enter SSID name	
Encryption	WPA2-PSK	
* Password	Enter Password	0
Enable SSID		$\bigcirc$
Enable VLAN		$\bigcirc$

Figure 27 : New SSID Configuration

#### Table 5 : Add New SSID

Section	Description
Name	SSID Name.
Encryption	Encryption type.
Password	The Wi-Fi password for the new SSID.
Enable SSID	Choose either to enable or disable this SSID.
Enable VLAN	Choose to enable or disable VLAN for this SSID.
VLAN ID	Enter the VLAN ID if VLAN is enabled.

### **Edit SSID**

Users can edit SSIDs created either from the application or from the GWN Cloud webGUI.

- 1. To edit SSID click on **SSID name**, a new tab with the SSID details will be displayed.
- 2. Click on Edit button to have access to SSID edit section.

<	SSID Details Edit	<	Edit	Save
Encryption	WPA2-PSK	* Name	Documentation Team	
Password	20172017	Encryption	WPA2-PSK	
Name	Documentation Team	* Password		۲
Enable SSID	Enable	Enable SSID		
Enable VLAN	Disabled	Enable VLAN		$\bigcirc$

Figure 28: Edit SSID

3. Once edited click on **Save** to save the new configuration.

# **APP SETTINGS**

App Settings page allows users to check the information related to the GWN Cloud and GWN Manager account, support and the application itself.

To access App Settings, click on 📃 icon

Figure 29: App Settings Interface

#### Account

The account tab shows the account name as well as the email address used to connect to the app, users can quit the app by clicking on Exit button.

<	Account
Account	admin
Email Address	admin@grandstream.com
